

Horse DNA Test Results

Report Date: 2/3/2011

PDSA#: H3704

Horse: Gypsys Prescription

Sex: Mare

Sire:

Registry 1: AQHA # 4994602

Owner: Tara Novotny

Breed: Quarter

Dam:

Registry 2: #

Notes:

Gene	Test Result	Test Explanation
At	One At	Test specific for the seal brown version (At) of Agouti: one dose of At detected. The horse can be either At/A or At/a (this would have to be determined in combination with the Agouti test specific for 'a': if such result is A/A then this horse can be presumed to be At/A; if such result is A/a then this horse can be presumed to be At/a). The allele 'At' restricts black hair from around the muzzle, eyes, flanks, inner thighs. An [E/E At/a] or [E/e At/a] horse is expected to have a seal brown base color.
